Dear Mr. Nair,

I would like to personally thank you for your recent gift in support of young mothers in our *Cœur à soeur* program.

These pregnant women and new mothers survive on very low incomes and depend on our services for help. Apart from being considered "at-risk", they are often subjected to violence and abuse. By providing a comfortable, safe, and easily accessible environment where they can receive the services and support they need, we hope to have a positive long-term influence on their young lives – and the lives of their children.

Your generosity proves to young mothers in difficulty that there is still hope for them and their babies. Your precious donation towards starter kits will help young mothers and their children receive the ongoing support they need for a better future.

Thank you again for thinking of us on Mother's Day.

Sincerely,

Samuel Watts
CEO/Executive Director

Thanks so much for
your ongoing support for
our young moms. *John*
